Dear: Eversource Energy:

In accordance with the Commonwealth of Massachusetts regulations (220 CMR 22.00), Eversource is hereby providing notice of planned and scheduled vegetation maintenance work on the transmission right-of-way (ROW) that is located within your town or city limits this year.

The vegetation work will involve the removal of identified hazard trees adjacent to the ROW. The vegetation work will be performed by qualified line clearance contractors and may include off-road bucket crews or manual climbing crews. The work to be performed is the removal of 4 white pine, 10 red maple, 2 red oak that are located on your property, adjacent to the ROW.

In order to ensure the safe and reliable operation of the transmission system, we are required to manage vegetation so that it does not encroach upon the energized conductors. The work noted in your area will ensure that we obtain the clearances required to prevent vegetation encroachment. This work is being scheduled for the Winter/Spring 2023.

As required by the regulations, you are being informed of this proposed work through this letter.

If you have any questions on the proposed work, please contact me at 781-441-3798.

Sincerely,

Michael Babineau
