

**TOWN OF HOLBROOK
PUBLIC WORKS DEPARTMENT
HYDRANT FLOW TEST**

July 19, 2022

The Holbrook Public Works Department & Mass Fire Prevention Inc. will be testing the hydrant located at 719 South Franklin St. between the hours of 9:00p.m. – 11 p.m. The activity may cause discolored water in varying degrees in the local area. Persons who experience water discoloration should clear their water system by opening the cold-water faucet for several minutes and then wait about an hour. If the water still is not clear, they should repeat the flushing procedure.
