

WATER METER REPLACEMENT PROGRAM

Beginning May 13th, the Water Department is starting its Meter Replacement Program. This is a mandatory replacement program for all residents that have existing water meters in their homes. There is no cost to the resident for the meter replacement. The Water Department has hired a third party vendor, Baystate Winsupply Co. to install these meters.

Residents will receive a letter in the mail with instructions for scheduling the meter replacement.

All Baystate Winsupply employees will have a photo ID badge and drive clearly marked vehicles. Do not allow any stranger into your home without a photo ID badge and clearly marked vehicle.

For questions or concerns, please call the Water Department at 781-767-1800.
